From Restaurant to Catering Powerhouse: The Jones & Sons Story

Jones & Sons started out as a restaurant a decade ago. However, it has since expanded its services to include food truck catering and hot box delivery. Due to the high demand for larger events, the company bought its first 7.5-tonne food truck in 2020. Now, it boasts a fleet of three trucks, two trailers, two low-loaders, fridge vans, and a coffee truck.

Since venturing into on-location production catering, Jones & Sons has had the privilege of serving some of the biggest names in the industry, including HBO, NBC, Netflix, and many Apple TV productions.

The company is proud to have been the official caterer for Great British Bake Off, GBBO Stand up to Cancer, and Bake Off USA for three years in a row.

Our 3 mills offering for TV and film catering is versatile, providing you with three options to choose from. You may opt for one of our many trucks, subject to availability, a buffet service upstairs in the mezzanine, also subject to availability, or a buffet set up on your stage.
