## From Restaurant to Catering Powerhouse: The Jones & Sons Story

Jones & Sons started out as a restaurant a decade ago. However, it has since expanded its services to include food truck catering and hot box delivery. Due to the high demand for larger events, the company bought its first 7.5-tonne food truck in 2020. Now, it boasts a fleet of three trucks, two trailers, two low-loaders, fridge vans, and a coffee truck.

Since venturing into on-location production catering, Jones & Sons has had the privilege of serving some of the biggest names in the industry, including HBO, NBC, Netflix, and many Apple TV productions.

The company is proud to have been the official caterer for Great British Bake Off, GBBO Stand up to Cancer, and Bake Off USA for three years in a row.

## **CATERING AND PAYMENT PROCEDURES**

### **Menu:**

Our team will send you the menus for the first week, and we will adjust the menu based on your crew's preferences and requirements during the shoot. We cater to each of our truck jobs based on the crew's preference. If your shoot is less than a week, we will send you all the menus upfront.

### **Payment:**

We send invoices for the shoots on Fridays or the last day of catering for smaller shoots, with a 7-day payment period.

## **Using WhatsApp to Facilitate Production Communication**

Efficient coordination between production and team members is critical for successful outcomes. To streamline communication, a WhatsApp group is created for each job, allowing for prompt updates regarding any last-minute schedule or timing changes/Preorders and anything else that is needed for quick communication. Additionally, the team will send daily menus through this platform.

## **Transparent Breakdown of Additional Costs**

To avoid any confusion or surprises, all additional costs incurred during production will be clearly outlined in the initial quote. Unless new items are added during the shoot, there will be no unforeseen costs that deviate from the original quote.
